

PD Dr. Wolfgang Müller

Head of Research Group – Scientific Databases and Visualisation (SDBV)
– Heidelberg Institute for Theoretical Studies HITS gGmbH, Heidelberg

DM Coordinator

Role in LiSyM-Cancer

- Coordinator of Data Management
- Responsible for overseeing the implementation of various platforms and tools

Expertise

- Research and development in scientific data management
- Coordination of large-scale data and model management projects (FAIRDOM and de.NBI-SysBio)
- Development of the SEEK platform for exchanging and storing data, models, and information in Systems Biology
- Active involvement in the data management (GI/GMDS), biocuration (ISB), and bio data standards (STREND, COMBINE) communities

Degrees

- Habilitation on information retrieval in peer-to-peer distributed systems
- PhD in the field of searching images by their visual similarity (CBIR)
- Diploma in physics and computer science

Professional Experience

- Group leader of the Scientific Databases and Visualisation Group (SDBV) at Heidelberg Institute of Theoretical Studies (HITS)
- Development and service provision for FAIR data in Systems Biology
- Brief stay in industry: rewrote a large public-facing web application
